22 March 2012

TLRC's Commitment to America's Dream of "Aging in Place"

~The Innovation's House ~

- Model home designed with easy to install, affordable technology and innovative products to safely age in place.
- Focusing on independent seniors and post-acute patients.
- Goal ~ To improve individual patient experiences and overall health outcomes while reducing costs to the healthcare system.

Pierce County Coordination of Care Opportunities The “COCO” Project

- Broad set of partners
- Responding to the transformation of care coordination
- Vision of a new workforce model
- Supporting the use of technology and the Innovation’s House.

Creating an Age-friendly World

More people are surviving childhood, and adults are now living longer. These are great triumphs, but also pose challenges related to a rapid ageing of populations around the world. Our goal is to enhance the quality of life of people as they age.
